Table of contents

Introduction	3
Executive Summary	5
List of Participants	11
Program	19

I. Analytical research report

M. C. Mena, A. Hernando,

M. Lombardía, J. P. Albar

The application of proteomics in gluten analysis: Identification and characterization of prolamins and glutelins through mass spectrometry	23
--	----

R. van Eckert, J. Bond, P. Rawson, A. Russell,

C. L. Klein, M. Stern, T. W. Jordan

Immunoreactivity of three gluten-detecting monoclonal antibodies to PWG gliadin	29
--	----

P. Koehler, B. Geßendorfer, H. Wieser

Preparation of partially hydrolysed prolamins as references for the immunochemical quantification of gluten in cereal-based beverages	35
---	----

H. J. Ellis, M.-C. Bermudo-Redondo, M.-L. Butero,

T. Suligoj, C. K. O'Sullivan, P. J. Ciclitira

Measurement of gliadin alone cannot predict total gluten content in foods	41
--	----

V. Doña, M. Bayardo, F. G. Chirido

Development of a real-time immuno-PCR assay for quantitative determination of gliadins	45
---	----

<i>J.-R. Mujico, L. Dekking, Y. Kooy-Winkelaar, I. Malmheden-Yman, M. Salden, R. Verheijen, P. van Wichen, L. Streppel, N. Sajic, J.-W. Drijfhout, F. Koning</i>	
Euro Diagnostica ELISA kit to determine gliadin and glutenin in gluten-free food: “Method validation process through collaborative study”	51
<i>I. Churruca, A. Lasa, J. Miranda, P. Fernández-Gil, E. Simón</i>	
The usefulness of a complementary real-time polymerase chain reaction technique in the determination of gluten in foods	59
<i>I. Malmheden Yman, B. Kruse</i>	
Gluten analysis in sweets, toffees and ice-creams containing glucose syrup	69
<i>P. M. Kanerva, T. S. Sontag-Strohm, O. M. Brinck, H. O. Salovaara</i>	
Effects of heating, reducing and alcohol concentration on the extractability of prolamins from barley, rye and wheat and the reactivity of prolamins with prolamins antibodies	75
<i>D. Gabrovská, J. Rysová</i>	
Final results of a study of daily gliadin intake	83
II. Clinical research reports	
<i>L. Maiden, T. Elliott, S. D. McLaughlin, P. J. Ciclitira</i>	
Capsule endoscopy compared to small bowel histology in the evaluation of non-responsive coeliac disease	91
<i>T. Mothes</i>	
Assessing the value of new antibody assays for the diagnosis of coeliac disease - what for?	95
<i>G. Byrne, J. Kelly, C. Feighery</i>	
Anti-tissue transglutaminase antibodies: a role in the pathogenesis of coeliac disease?	101

III. Risk governance and food safety

M. Dreyer

Inclusive Food Safety Governance:
its potential and prospects 109

*A. G. Kruizinga, M. Q.I. Spanjersberg,
G. F. Houben*

Risk assessment principles for allergens in food:
application to gluten 115

IV. 20 years AO ECS

H. Deutsch

20 years AO ECS 125

V. Perspectives and action plan

M. Stern

Perspectives and action plan 139
