

Table of Contents

Design of Functional Surfaces

Technology Trends in the Automotive Industry	9
Pätzold, H.	
Cubic Boron Nitride Tools for Efficient Grinding.....	15
Despang, F.	
Process Reliability in Smooth Rolling by Online Monitoring and Control.....	23
Löschner, R.	
Increased Functionality of Tools and Components Due to Structured Surfaces	37
Schneider, J.; Gross, S.; Schmidt, T.	

Machining of Hard-to-Machine Materials with Geometrical Defined Cutting Edge

Challenges in Aerospace Manufacturing	53
Brinken, F.; Bringmann, B.; Queins, M.	
Machining of Hard Brittle Chipping Materials also with Ultrasonic Assistance	75
Hufschmied, R.R.; Oyanedel Fuentes, J.A.	
Reliable Processing of High Temperature Resistant Materials with the Example of a Turbocharger Using New PVD Coating Generations	81
Bross, D.	
Machine Design and Operation for Hard-to-Cut High Performance Materials	87
Putz, M.; Wabner, M.; Frieß, U.; Richter, C.; Glänzel, J.; Kuznetsov, A.	

Hybrid Editing Processes

Hybrid Cutting Processes – Potentials of Processing Strategies with Superimposed Axis Movements	111
Putz, M.; Hochmuth, C.; Stoll, A.; Schneider, R.; Schneider, J.	
Productivity Benefits of High Pressure Coolant Tools	133
Engström, T.	
Performance Increase in Milling TiAl6V4 by Applying Cryogenic CO ² -Cooling	137
Franke, V.	

Process Reliability and Availability

Stabilized Processes by Connected Industry	145
Horn, W.	
Reduction of the Production Times in Cutting Series Production by Time-Optimized Infeed.....	155
Schuster, B.; Rienäcker, C.	
Acoustical Process-Monitoring with High Frequency Impulse Measurement	173
Barteldes, S.; Keitmeier, J.; Schulte, D.	
Digitalization in Production – Data as Prerequisite of Modern Production Technology	183
Langer, T.; Putz, M.; Hoffmann, M.	

Efficient Production

Energy Storage Systems for Industrial Production	201
Richter, M.; Kolesnikov, A.	

Condition Monitoring in Motor Spindle Systems219
Aschauer, F.; Bonerz, S.

**Intelligent Systems for Increasing Efficiency – a Response to the Requirements
of Today's Production Technology231**
Pause, B.
